Examination

Remote Proctored Exam

The BCPA certification exam is administered as a computer-based test (CBT) administered via Examity throughout the United States and across the globe. Examity is a secure and reliable online proctoring solution that gives candidates the flexibility and safety to take the exam remotely. It provides certification boards like PACB with robust security features to prevent cheating and preserve the integrity of the credential.

Exam Format

The BCPA exam consists of 125 multiple-choice questions covering the 7 domains as described in the Competencies and Best Practices for Patient Advocates and the Ethical Standards for a Board Certified Patient Advocate. Candidates are presented with a question and are asked to choose the correct answer from the four options provided. Only one answer is correct. There is no penalty assessed for an incorrect answer; points are scored only for correct answers. An exam form may contain additional pre–test items (unscored test questions), which are allotted for in the exam duration time.

Candidates have three hours to complete the examination. A digital clock will indicate the time remaining to complete the examination. The “Time” feature may be turned off during the examination. Only one examination question is presented at a time and each question has four possible answer options. To choose a particular answer option, click in the radio button (circle) next to the answer. Candidates may move back and forth through the questions. Questions may be flagged for follow-up.
Language

The examination is offered in English only.

Special Accommodations/Test Administration Modifications

Special accommodations to test administration shall be provided to candidates with a disability (as defined by Title III of the Americans with Disabilities Act, the Canadian Federal Disabilities Act, and the Canadian Charter of Human Rights) who submit with their certification application, a written explanation of their needs, along with appropriate medical documentation. Requests must be submitted no less than 6 weeks prior to test date. This is required to allow sufficient time for adequate arrangements to be made on behalf of the test candidate. Application forms for accommodations are included under the Forms section later in this Handbook and provided online under the BCPA Access (Prolydian) Portal. Contact help@pacboard for accommodation forms.

Candidate Comments and Evaluation

During the examination, candidates may make comments for any question by clicking on the button displaying an exclamation point (!) to the left of the “Time” button. This opens a dialogue box where comments may be entered. Comments will be reviewed, but no individual identifying information is provided.

Preparing for the Examination: Examination Content Outline

The examination for Board Certified Patient Advocate credential is a computer-based examination composed of 150 multiple-choice questions administered in one session, with no predefined breaks. Candidates have 3 hours to complete the exam. The exam consists of 125 scored items and 25 pre-test/unscored items with four-option multiple choice responses. The pre-test items are randomly distributed throughout the test and do not count towards the score.

The content measured by the examination is based on four key documents, each of which has been approved for usage by the PACB following rigorous public comment solicitation and Subject Matter Expert review. Each of these documents is available at https://pacboard.org.

- Ethical Standards
- Competencies and Best Practices
- Key Terms; and
- Code of Professional Responsibility
The current examination is based on United States (U.S.) patient advocacy best practices and standards that have emerged over time. Residents outside of the United States are encouraged to take the examination acknowledging the exam is based on the US healthcare system including payor sources and regulatory agencies.

The exam is constructed to be consistent with minimal competency requirements for a Board Certified Patient Advocate according to criteria referenced testing concepts. A committee of subject matter experts is charged with reviewing and updating the pool of questions (known as the ‘item bank’). The examination measures knowledge across seven topic areas that reflect the critical aspects of patient/health advocacy. Topic areas are weighted in terms of their importance for effective performance on the job. The weights convey the percentage of the exam that is allocated to each area. Larger percentages mean more items on the exam are related to that topic area.

The examination for Board Certified Patient Advocate credential is weighted as follows, based on task, importance, and frequency:

<table>
<thead>
<tr>
<th>I.</th>
<th>Scope of Practice and Transparency</th>
<th>12%</th>
</tr>
</thead>
<tbody>
<tr>
<td>II.</td>
<td>Empowerment, Autonomy, Rights, and Equity</td>
<td>18%</td>

To earn the BCPA credential, a candidate must pass the certification examination. PACB’s exam team constantly reviews the exam, adding new questions and removing outdated ones to address changes in the profession. As such, several versions of the exam may exist at any given time. In addition, we review the overall performance of the exam after each cycle and even track the results of each individual test question. Statistically, we know that some versions of the exam may be slightly easier or more difficult than other versions. A panel of subject matter experts (SME) uses two industry-wide accepted and recommended approaches to ensure proper standardization and establish a recommended passing score: the modified-Angoff method and the Hofstee Range Estimation. In this approach all SMEs review each item individually to determine the probability that a minimally qualified patient advocate would answer each question correctly. Collective results from each SME are then compiled to compute the average predicted probability for each item and generate a recommended passing score to PACB. These scores represent the minimum level of knowledge that a patient advocate must demonstrate to pass the exam. To ensure fairness, we use a system called scaled scoring.

A scaled score is a representation of the total number of correct questions answered (aka the raw score) that has been mathematically converted into a standardized scale. Scaled scoring is considered best practice in the certification industry and is used to account for any potential differences in difficulty across various forms of the exam.

Test developers follow strict guidelines when developing multiple exam forms to ensure each version is similar in difficulty. However, variability in individual questions rarely results in forms of the exam that are exactly equal. As a result, percent correct scores do not always represent a fair comparison. For example, a candidate scoring 70% on a difficult form of the exam may have more knowledge than another candidate scoring 80% on an easier version. Similarly, raw scores result in the same discrepancy between two forms of the exam. For those reasons, a scaled score is used to provide a standard range and allows for direct comparisons of results.
For example, if the scaled passing score for the BCPA exam is 100 on a scale of 70–125 in the table below, you can see Form A is more difficult because it requires fewer correct answers (a raw score of only 95) to achieve a passing score of 100, while on Form B, a raw score of 97 correct items is required to achieve a passing score of 100.

*Sample data provided to illustrate the concept of Scaled Scoring. It is not provided to interpret actual BCPA exam results.

Candidates pass or fail the test as a whole. While there are no numeric scores calculated by domain, the report will include an indication of the candidate's relative strengths and weaknesses within the domains. Feedback about domain performance is solely for the purposes of identifying areas requiring further study.

Results Passing

Candidates who successfully complete the examination and whose credentials and application entitle them to certification will be notified by email and granted the Board Certified Patient Advocate (BCPA) credential. The certification remains the property of PACB, which may withdraw, cancel, revoke, or otherwise annul the certification for cause.

Results Failing

Candidates who do not successfully complete the examination will receive a report indicating areas of weakness. Detailed information regarding score results is not provided.

Reexamination

The examination for the Board Certified Patient Advocate credential may be taken up to three times within a three year period. If a candidate fails a third time, he or she must submit an appeal to the PACB for consideration to re–test. Each test attempt requires completion of an application and payment of the required fee. A candidate who passes the BCPA certification test is prohibited from retaking the same exam unless the candidate chooses to do so upon recertification (in lieu of continuing education).
Recertification and Lapsed Designation

**Purpose of Recertification**

Active BCPAs demonstrate their commitment to stay abreast of industry best practices by ensuring their knowledge and expertise remain current via recertification. View complete details in the Continuing Education/Recertification Guide.

**Recertification Process**

Certificants must recertify every three years to maintain active BCPA status. Recertification requires:

- Continued agreement and compliance with the Code of Professional Responsibility.
- Submission of 30 hours of approved continuing education (including 6 hours of Ethics).
- Payment of $275 recertification fees.

Complete details regarding renewal fees are available in the Continuing Education Handbook for Certificants. Candidates may also retest and pass the BCPA exam in lieu of submitting 30 hours of continuing education.

**Continuing Education Hours**

PACB uses contact hours to define a unit of continuing education where 1 contact hour equals 60 minutes of educational content. Certificants must ensure that at least 6 of the 30 required contact hours are in the domain of Ethics.

CEs are entered online via the BCPA (Prolydian) online portal.

**Filing a Recertification Extension Request**

Keeping your credential active requires renewal every 3 years. A BCPA may apply to PACB for a filing extension due to the following conditions:

- Unemployment
- Appointment or election to full-time public office on the local, state, or national level
- Service in the military
- Medical
The request for the filing extension must be submitted in writing to PACB within three months of their recertification date. Extensions are not granted for more than one year and are subject to the review of the Certification Commission. There may be an extension fee of $125 applied to each request.

**Notice of Recertification and Reminders**

Approximately six months prior to the expiration of the certificant’s certification, PACB will send certificants a notice and information about their current recertification application. This notice will be sent to the certificant’s last email address on file with PACB’s online BCPA (Prolydian) portal.

It is the professional responsibility of each certificant to notify PACB of a change of address, to be aware of his or her certification expiration date, and to complete the application by the specified deadlines. Failure to receive notice from PACB does not excuse the certificant from complying with all recertification deadlines.

**Loss and Reinstatement of Certification**

Individuals who do not meet recertification requirements will lose certified status. To reinstate certified status, individuals must re-establish eligibility and pass the certification examination.

**Certification Mark Usage Policies and Procedures**

**Appropriate Use of the Certification**

An individual who has been granted the BCPA may list the certification on stationery, websites, business cards, and other promotional materials as:

First name, Last name, BCPA
Board Certified Patient Advocate

Should the certification be suspended or withdrawn for any reason, the individual must immediately cease the use of the title “Board Certified Patient Advocate” and acronym designation on stationery, websites, business cards, and any and all promotional materials.
